NEVADA STATE BOARD OF MEDICAL EXAMINERS

| IN THE MATTER OF DISCIPLINARY PROCEEDINGS AGAINST | : |
|--|--------------------------|
| ROBERT L. STEARS, M.D., | FINAL DECISION AND ORDER |
| RESPONDENT. | ORDERUUU7941 |

Division of Legal Services and Compliance Case No. 21 MED 133

The parties to this action for the purpose of Wis. Stat. § 227.53 are:

Robert L. Stears, M.D. Houston, TX 77040

Wisconsin Medical Examining Board P.O. Box 8366 Madison, WI 53708-8366

Division of Legal Services and Compliance Department of Safety and Professional Services P.O. Box 7190 Madison, WI 53707-7190

The parties in this matter agree to the terms and conditions of the attached Stipulation as the final disposition of this matter, subject to the approval of the Medical Examining Board (Board). The Board has reviewed this Stipulation and considers it acceptable.

Accordingly, the Board in this matter adopts the attached Stipulation and makes the following Findings of Fact, Conclusions of Law, and Order.

FINDINGS OF FACT

1. Respondent Robert L. Stears, M.D. (Year of Birth 1957), is licensed in the state of Wisconsin to practice medicine and surgery, having license number 70776-20, first issued on April 1, 2019, with registration current through October 31, 2023. Respondent's most recent address on file with the Wisconsin Department of Safety and Professional Services (Department) is in Houston, Texas 77040.

2. At all times relevant to this proceeding, Respondent practiced radiology.

3. On December 28, 2017, Patient A, a male born in 1931, was transferred to a medical center in Columbus, Georgia, with sepsis, acute renal failure, and diarrhea. He was admitted to the Intensive Care Unit.

4. At approximately 12:50 a.m. on December 29, 2017, an arterial line was placed in Patient A's right radial artery, and at 1:10 a.m. a right internal jugular line was placed. At 1:41 a.m. (CST), a STAT chest x-ray was ordered. The order comment noted that Patient A was status post right IJ central line placement.

5. Respondent reviewed Patient A's chest x-ray and issued his report at 2:20 a.m. (EST). In his findings, Respondent's interpretation confirmed there was a small left pleural effusion and no pneumothorax but did not make mention of the central line or its placement.

6. At 2:30 a.m. (CST), a second chest x-ray was ordered after Patient A was intubated. Respondent reviewed the second chest x-ray and issued his report at 3:48 a.m. (EST). In his findings, Respondent noted that the right jugular central line tip is in the downstream left subclavian vein.

7. On December 30, 2017, a chest CT was performed and interpreted by another provider. It found that the "right-sided central line within the right common carotid with the tip at the origin of the right common carotid." The central line was determined to be malpositioned and was removed.

8. Patient A suffered severe vascular injury to his brain and died on January 9, 2018.

9. Respondent failed to comment on the central line in his first report, even after the indication was "right IJ central line placement," and failed to identify that the central line did not follow the course of any anatomic vein and, therefore, should have been flagged for further investigation.

10. Respondent denies that his care fell below the standard of minimally competent medical practice but, in resolution of this matter, consents to the entry of the following Conclusions of Law and Order.

CONCLUSIONS OF LAW
