NEVADA STATE BOARD OF
MEDICAL EXAMINERS

By: 

9
10 **ORDER OF SUMMARY SUSPENSION AND NOTICE OF HEARING**

11 The Investigative Committee¹ (IC) of the Nevada State Board of Medical Examiners
12 (Board) hereby **IMMEDIATELY SUMMARILY SUSPENDS** the license of
13 Hisbay Haider Ali, M.D. (Respondent) to practice medicine in the State of Nevada, pursuant to the
14 Board's authority to regulate the practice of medicine in the State of Nevada pursuant to Nevada
15 Revised Statutes (NRS) Chapter 630.

16 The IC issues this Order of Summary Suspension (Order) based on its determination that
17 Respondent's acts put the health, safety or welfare, of the public at risk of imminent or continued
18 harm pursuant to NRS 630.326(1).

19 Prior to the preparation of this Order, Board Staff presented to the IC the following:

20 1. Respondent is a medical doctor licensed to practice medicine in the State of
21 Nevada (License No. 20660). The Board issued his license on December 31, 2020.

22 2. On March 18, 2024, the IC filed a formal complaint against Respondent alleging
23 the following:

24 a. On or about March 14, 2022, and March 15, 2022, Respondent engaged in
25 sexual intercourse with a patient (Patient A). Prior to the sexual relationship, Respondent sent the
26 patient a text message to her cell phone utilizing his personal cell phone and initiated an
27 inappropriate conversation to seduce Patient A into a sexual relationship with him.

28 ¹ The Investigative Committee of the Nevada State Board of Medical Examiners is composed of Board members Bret W. Frey, M.D., Chairman, Col. Eric D. Wade, USAF (Ret.), and Hugh L. Bassewitz, M.D., FAAOS.

1 b. On March 18, 2022, Respondent visited a nightclub with Patient A and an
2 associate of Respondent. Respondent began drinking heavily and informed his associate that he
3 was the treating psychiatrist of Patient A and that he had diagnosed her as manic.

4 c. On the same date, Patient A attempted to end her sexual relationship with
5 Respondent. Respondent repeatedly sent text messages to her and threatened to show up at her
6 residence. Despite multiple requests by Patient A to be left alone, she ultimately resorted to
7 texting Respondent that she would call the police if he persisted.

8 d. From March 19, 2022, through March 21, 2022, Respondent sent flowers
9 and “love letters” on three (3) separate occasions to Patient A’s residence as well as, on one (1)
10 occasion, personally delivered flowers to Patient A’s residence.

11 e. Respondent ceased treating Patient A at his practice after this encounter and
12 failed to make any arrangements or referrals for her continuity of care, including ensuring she
13 would not have withdrawals from her medications or a way to refill her prescriptions.

14 3. In a second formal complaint filed on April 24, 2024, the IC alleged the following:

15 a. On November 16, 2021, Respondent began seeing a patient (Patient B) for
16 psychiatric care following Patient B’s transfer from another provider in the Respondent’s practice.
17 Respondent continued to see Patient B for a period of six (6) months following this initial
18 encounter. During this time, Respondent never ran a prescription monitoring program report
19 (PMP) for Patient B, as required by Nevada law prior to prescribing Patient B with
20 benzodiazepines, a Schedule IV controlled substance.

21 b. PMP data showed Patient B was concurrently being prescribed opioids
22 during his treatment with Respondent which is contraindicated. Respondent failed to address
23 Patient B’s opioid use in his medical records, taper down Patient B’s benzodiazepine usage, or
24 switch Patient B to a longer acting medication such as clonazepam. Respondent’s notes during
25 the remainder of Patient B’s visits continued to be highly templated and contained identical
26 subjective and mental status exams which included repeated spelling errors, all of which indicate
27 the records were cloned.

28 ///

1 4. On July 3, 2024, the Investigations Division of the Board obtained a Criminal
2 History Report following the fingerprint and a background waiver required under NRS 630.342
3 and related to Respondent’s prior formal complaints.

4 5. The Investigative Committee learned from the Criminal History Report that on or
5 about December 18, 2022, Respondent was arrested for domestic violence following an altercation
6 with a romantic partner.

7 6. Respondent failed to report this arrest to the Board within thirty (30) days as
8 required by NRS 630.306(1)(I).

9 7. Respondent submitted his renewal application on June 21, 2023, wherein he
10 answered “no” to the question in the renewal application of whether the Respondent had ever been
11 arrested, investigated, or pled guilty or nolo contendere to any offense or violation of any federal
12 law (including the Uniform Code of Military Justice), state or local law, or the laws of any foreign
13 country which is a misdemeanor, gross misdemeanor, felony, violation of the Uniform Code of
14 Military Justice, or synonymous thereto in a foreign jurisdiction, excluding any minor traffic
15 offense (driving or being in control of a motor vehicle while under the influence of a chemical
16 substance, including alcohol is not considered a minor traffic offense), or for any offense which is
17 related to the manufacture, distribution, prescribing, or dispensing of controlled substances.

18 8. Respondent’s renewal application for his Nevada medical license was approved on
19 or about June 27, 2023, without critical review of his criminal history.

20 9. Additionally, the Criminal History Report showed that on or about April 6, 2024,
21 Respondent was arrested for driving under the influence of alcohol (DUI). Respondent was
22 involved in a single-person vehicle accident. While driving at a high rate of speed, Respondent
23 collided with a curb causing the vehicle to roll over. Respondent had a blood alcohol volume of
24 .273 grams per milliliter at the time of his arrest.

25 10. Respondent failed to report this DUI arrest to the Board within thirty (30) days as
26 required by NRS 630.306(1)(I).

27 11. Accordingly, the IC finds that the health, safety and welfare of the public is at
28 imminent or continued risk of harm if Respondent is permitted to continue practicing medicine,

1 and that an immediate summary suspension of Respondent’s license to practice medicine in the
2 State of Nevada is necessary for the protection of the public, because: (1) Respondent initiated a
3 sexual relationship with Patient A; (2) Respondent was improperly prescribing Patient B
4 benzodiazepines, cloned his records, and did not obtain a drug screening or check Patient B’s
5 PMP; (3) Respondent submitted for biennial registration (renewal) of his medical license utilizing
6 false, misleading, inaccurate, or incomplete statements when he omitted his criminal history; and
7 (4) Respondent failed to timely disclose his criminal history to the Board with respect to his 2022
8 domestic violence arrest, and his 2024 DUI arrest where he was involved in a serious car accident
9 with a blood alcohol volume of .273 g/ml. *See* NRS 630.326(1).

10 **ORDER**

11 **IT IS HEREBY ORDERED** that the license of HISBAY HAIDER ALI, M.D.
12 (License No. 20660) is **SUMMARILY SUSPENDED** until further order of the IC or Board, and
13 Respondent is prohibited from engaging in any acts that constitute the practice of medicine
14 pursuant to NRS 630.020; and

15 **IT IS FURTHER ORDERED** that a hearing on this matter is set for the **4th day of**
16 **November, 2024, at 1:30 p.m.**, at the Board’s office located at 9600 Gateway Drive, Reno,
17 Nevada 89521, to determine whether this suspension may continue, unless the parties mutually
18 agree in writing to a different date and/or time. *See* NRS 630.326(2).

19 DATED this 11th day of October, 2024.

20 INVESTIGATIVE COMMITTEE OF THE
21 NEVADA STATE BOARD OF MEDICAL EXAMINERS

22 By:

23 BRET W. FREY, M.D.
24 *Chairman of the Investigative Committee*
